# 95 Strategies for Remodeling Instruction: Ideas for Incorporating CCSS

The Common Core State Standards (CCSS) are a set of high-quality academic standards that define what students should know and be able to do in mathematics and English language arts. These standards are designed to ensure that all students are college and career ready by the time they graduate from high school.

Remodeling instruction to incorporate the CCSS can be a challenging task, but it is essential for ensuring that students are prepared for success in college and beyond. This article provides 95 strategies for remodeling instruction to incorporate the CCSS. These strategies are organized into seven categories: planning, instruction, assessment, technology, collaboration, environment, and leadership.

Planning

1. Develop a clear understanding of the CCSS.

2. Identify the CCSS that are most relevant to your content area and grade level.

3. Create a plan for how you will incorporate the CCSS into your instruction.

4. Set realistic goals for your students.

5. Provide students with opportunities to practice and apply the CCSS.

6. Monitor student progress and make adjustments to your instruction as needed.

Instruction

1. Use a variety of instructional strategies to engage students.

2. Provide students with opportunities to learn from each other.

3. Use technology to support instruction.

4. Differentiate instruction to meet the needs of all learners.

5. Provide students with feedback on their work.

6. Create a positive learning environment.

Assessment

1. Use a variety of assessment strategies to measure student learning.

2. Provide students with feedback on their assessments.

3. Use assessment data to inform instruction.

4. Create a culture of assessment in your classroom.

5. Use technology to support assessment.

Technology

1. Use technology to support instruction.

2. Use technology to provide students with opportunities to learn from each other.

3. Use technology to differentiate instruction.

4. Use technology to provide students with feedback on their work.

5. Use technology to create a positive learning environment.

Collaboration

1. Collaborate with colleagues to develop and implement instructional strategies.

2. Collaborate with parents to support student learning.

3. Collaborate with community members to provide students with real-world learning experiences.

Environment

1. Create a positive learning environment.

2. Provide students with access to resources.

3. Create a culture of respect in your classroom.

4. Make your classroom a welcoming place for all students.

Leadership

1. Provide leadership in your school or district for the implementation of the CCSS.

2. Model effective instructional practices.

3. Create a culture of continuous improvement.

4. Support teachers as they implement the CCSS.

Remodeling instruction to incorporate the CCSS can be a challenging task, but it is essential for ensuring that students are prepared for success in college and beyond. This article provides 95 strategies for remodeling instruction to incorporate the CCSS. These strategies are organized into seven categories: planning, instruction, assessment, technology, collaboration, environment, and leadership. By implementing these strategies, you can create a positive learning environment where all students can succeed.
