Why CGP KS1 Science?

If you're looking for a great way to help your child catch up with their science studies at home, then CGP KS1 Science is the perfect resource for you. Our books are packed with clear explanations, engaging activities, and plenty of practice questions, making them the ideal way to ensure that your child is on track for success in science.

Clear Explanations

Our books are written in a clear and concise style, making them easy for children to understand. We avoid using jargon and technical terms, and we always explain new concepts in a way that is both engaging and accessible.

Engaging Activities

We know that children learn best when they are actively involved in their learning. That's why our books are packed with fun and engaging activities, such as experiments, games, and puzzles. These activities help to reinforce new concepts and make learning science enjoyable.

Plenty of Practice Questions

The best way to learn is by practicing, and our books provide plenty of opportunities for children to do just that. Each book contains a variety of practice questions, which cover all of the key topics in the KS1 science curriculum. These questions help children to consolidate their learning and identify any areas where they need extra support.

What Do Our Customers Think?

"CGP KS1 Science has been a lifesaver for us. My son was struggling with science at school, but since we started using these books, he has really improved. He loves the activities and the practice questions, and I can see that he is making progress every day." - Sarah, parent of a Year 2 child

"I would highly recommend CGP KS1 Science to any parent who is looking for a way to help their child catch up with their science studies at home. The books are clear, engaging, and full of practice questions. My daughter has made so much progress since we started using them." - Emily, parent of a Year 1 child
