Early Life and Influences

Susan Anthony was born on February 15, 1820, in Adams, Massachusetts. Her Quaker upbringing instilled in her a deep sense of equality and the importance of speaking truth to power. Her father, Daniel Anthony, was a cotton mill owner known for his liberal views and support of abolitionism. Anthony's mother, Lucy Read, was a dedicated housewife and a strong influence on her daughter's moral compass.

Teaching and Early Activism

In her early adulthood, Anthony worked as a teacher in New York. However, the gender wage gap and limited opportunities for women in education left her disillusioned. She embraced temperance, a popular reform movement of the time, and became an active participant in abolitionist organizations.

The Women's Rights Movement

In 1851, Anthony met Elizabeth Cady Stanton, a fellow advocate for women's rights. Together, they founded the National Women's Rights Convention the following year. Anthony became the organization's recording secretary, a role she held for 30 years.

Anthony and Stanton advocated for property rights, economic empowerment, and the right to vote for women. They argued that women were just as capable as men in education, employment, and decision-making.

Civil War and Abolition

During the Civil War, Anthony paused her suffrage work to focus on abolition. She believed that ending slavery was a necessary step towards achieving women's rights. She co-founded the Women's Loyal National League, which collected signatures on petitions and raised funds for the Union cause.

The Fight for Suffrage

After the war, Anthony returned to her suffrage activism with renewed vigor. She founded the National Woman Suffrage Association (NWSA) in 1869, an organization that took a more radical approach than the rival American Woman Suffrage Association (AWSA), led by Lucy Stone.

Anthony's tactics often included protest and civil disobedience. In 1872, she was arrested for attempting to vote in the presidential election, an act that resulted in her conviction and a fine of \$100.

Later Years and Legacy

Despite her setbacks, Anthony's determination never wavered. She continued to lecture, write, and organize for suffrage throughout the rest of her life. In 1890, the NWSA and AWSA merged, forming the National American Woman Suffrage Association (NAWSA).

Anthony died on March 13, 1906, just 14 years before the 19th Amendment was passed, granting women the right to vote. She was posthumously awarded the Presidential Medal of Freedom in 1979.
